REQUEST TIME :

We have confirmation of the availability of the venue, but we lack a few details, starting by its price for the week-end. Being a municipal room, it should anyway be far less expensive than a civil.

We would also like to have the opportunity to contact other person to give us a venue within Paris itself.

We will give the remaining details as soon as we get them, but a few days might be necessary because of the Christmas holidays.

We also kindly ask for a delay of a week in order to find an alternative better venue location.

We have asked PP-FR to contribute to the GA costs, but due to Christmas holidays we have not a firm proposal yet. We therefore do not promise anything now, but we hope to have a positive answer before January 3rd.

SOCIAL EVENT

Since the event shall take place in Paris, there are many places a social event can take place at. We already have some ideas and we have a person in the planning team which is in charge of the social event.

The venue is near to La Defense mall ("les 4 temps" : 15 themed restaurants, 12 bar), open on Sunday.

Funding possibilities:

- A request was sent to the Pirate Party of France to provide an extra participation for the conference.

Additional funding concepts :

- Political parties in France cannot get any help that another political party would not be given too.

EXTRAS

- Pirate Party of France is a well established Pirate Party with a thousand members and the support of 2 to 3% of the voters in areas where we have the money to support a real campaign. Our party conferences have more than a hundred attendees.
- We will have the European Parliament elections and 3 different French elections in 2014, hosting this international pirate conference could be a sign that the pirate movement is rising in Europe and a good opportunity for PP-FR to be heard in the middle of an "empty" political year in France.
- Holding the conference in Paris will allow most Pirate Parties to attend the conference.
- Paris is the most visited city in the world and French ~~girls~~ wines, brandy and food are the finest in the world.
- Pirate Party of France has worked a lot on financial transparency and is telling its members informed of how much is spent and what for. (We do not publish the identity of our members or donators, but we only accept money from individual citizens, and no more than 7.500€ a year.) We will be fully transparent about the money we get and spend, and we dedicate a full post of the planning team to this subject.
- Pirate Party of France agrees to sign financial engagements with the PPI, and will never spend any money without prior control and approval from the PPI board. Any money collected for the GA and not spent that way will be returned to the PPI within a maximum given delay (1 or 2 month for example).
- Pirate Party of France is capable of hosting a PPI General Assembly next spring and did not throw the towel pretending it was not possible.

ACCOMMODATION

Approx. number of hostels/hotels near venue: hundreds

Approx. costs for accommodation for 2-3 days:

Prices in Paris are expensive, but a wide range of offers is available.

- Tens of French pirates will offer couch-surfing for free.
- Hostels can be found for less than 5€/person a night, but most of them will be between 10 and 20€.
- Hotels can be found starting around 15€ with very basic quality, prices rise pretty fast.
