BUREAU / SECRETARIAT

this one could be a bit tricky. Basically it is describing a Body that should get legal personality somewhere, meaning, it is this Body of the PPI that will actually open banking accounts, registering legal subsidiaries, handle the mail and so on. In my understanding it will give itself it's own set of statutes while registering a legal entity that will include all the regulations demanded by the national laws under which jurisdiction it will fall. So the purpose of this module is to describe its relationship with all the other bodies of the PPI, while to be national legislation agnostic.
